

Sheet 6 of 9

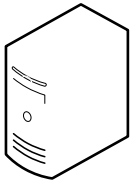

Real World Scenario #2 John Buys A Book Online. Using A “Calico” Aware E-Commerce Company.

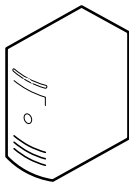

John has purchased a book from his favorite “E-Tailer”.
At the checkout screen he enters his details.

Name Address,
Telephone Number,
Email Address

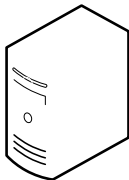

and because they are a “Calico” aware “E-Tailer” they have a
form field for “Authorization Phrase”
John enters his details and presses “RETURN”

The “E-Tailer’s” Website processes his purchase,
In order to construct the “Extended Open Email
Address”
An XML web service is used.

The “E-Tailers” service credentials are verified
and the extended address is constructed.
75f545c114149594e5c5#john@hisisp.com

The “Extended Open Email Address” is returned
via an XML reply to the “E-Tailer”.
”Johns” purchase request receives final
processing.

John receives his confirmation email.
